ISAAC BARTH

DEMOCRATIC CANDIDATE FOR GOVERNOR

TUCUMCARI JUNE 12

DON'T FAIL TO HEAR HIM

CELEBRATE FLAG DAY JUNE 14

Washington, D. C., May 30.—President Wilson today issued a proclamation calling upon the people of the United States to celebrate Flag day, June 14, with patriotic exercises, giving expression to "our thoughtful love of America." The proclamation follows:

"My Fellow Countrymen:

"Many circumstances have recently conspired to turn our thoughts to a critical examination of the conditions of our national life, of the influences which have seemed to threaten to divide us in interest and sympathy; of forces within and forces without that seemed likely to draw us away from the happy traditions of united purpose and action of which we have been proud.

"It has, therefore, seemed to me fitting that I should call your attention to the approach of the anniversary of the day upon which the flag of the United States was adopted by the congress as the emblem of the union and to suggest to you that it should, this year and in the years to come, be given special significance as a day of renewal and reminder, a day upon which we should direct our minds with a special desire of renewal to thoughts of the ideals and principles of which we have sought to make our government the embodiment.

"I, therefore, suggest and request that throughout the nation and if possible, in every community, the 14th day of June be observed as flag day with special patriotic exercises at which means shall be taken to give significant expression to our thoughtful love of America, our comprehension of the great mission of liberty and justice to which we have devoted ourselves as a people our pride in the history and our enthusiasm for the political program of the nation, our determination to make it greater and purer with each generation and our resolution to demonstrate to all the world its vital union in sentiment and purpose, accepting only those as true compatriots who feel as we do the compulsion of this supreme allegiance.

"Let us on that day rededicate ourselves to the nation, one and inseparable, from which every thought that is not worthy of our father's first vows of independence, liberty and right shall be excluded and in which we shall stand with united hearts for an American which no man can corrupt, no influence draw away from its ideals, no force divide against itself, a nation distinguished among all nations of mankind for its clear, individual conception of its duties and its privileges, its obligations and its real rights."

Indiana Man's Experience

Frank Moseley, Moore's Hill, Ind., writes: "I was troubled with almost constant pains in my sides and back and attributed it to weakening of my kidneys. I got a package of Foley Kidney Pills. Great relief was apparent after the first doses and in 48 hours all pain left me." If you have rheumatism, backache, swollen, aching joints or stiff, painful muscles, why not try Foley Kidney Pills? They stop sleeping-disturbing bladder ailments, too.

We imagine the New York husbands are behind that women's garment strike. At any rate, they are behind it, if they have a particle of gray matter in their domes.

"Villa can't live forever," reminds an editor. Exactly, but neither can the rest of us.

Somewhat, we don't seem to feel half as warlike this morning as we did this time yesterday.

The New York Irish editors who are calling for a new revolt against England are still here.

The Zeppelin wrecks, according to available reports, are almost as deadly as the Zeppelin raids.

Carranza is anxious to have relations with this country confined to diplomatic correspondence.

What the Old Guard republicans hope is to make Sagamore Hill our equivalent of Dead Man's Hill.

"There is a woman's head on our coins," says the Boston Transcript. Sure. That's why money talks.

Amato and Paderewski booked for a Sing Sing concert, somehow reminds us of the stars and stripes.

Mr. Hearst actually couldn't have been a bit more excited over that Irish rising if he had a cattle ranch over there.

The Italian campaign has at least shown that the Italians are among the greatest mountain climbers the world has ever known.

It is an unfortunate and perhaps peculiar coincidence that our little crises with Germany and Mexico have twice come at about the same time.

National Defense and International Peace

Preparedness and Peace and the Engineer

THE United States desires peace, based on justice and maintained with honor. But to insure this kind of peace Americans must know that nations are now deterred not alone by fighting men, but by fighting industries.

The Engineer is of this country, trained as only American Engineers are trained, hold that truth follows as fundamental as the law of gravity. With the authority of the United States Government more than 30,000 Engineers and Chemists, members of the Engineers' American scientific bodies, are making for the first time in the history of the Government, a minute, sweeping survey of the industrial resources of America. They will go to the factories and mines of the land and with their sole method, efficiency, and their sole motive, patriotism, form a vast, flexible organization, such as the world has never known.

Their work will be the basis for creating in this country a true line of defense in time of war, the ability to produce swiftly, abundantly and with sustained power all the thousand and one elements of modern warfare without such production there can be no efficient army and navy.

Military Preparedness wins the battle. But Industrial Preparedness wins the WAR! Industrial Preparedness involves no huge expenses. Only the KNOWLEDGE of what American Industry can do. To KNOW the extent of each plant, the equipment of each shop, the capacity of each machine, the ability of each man. THAT is the essence of Industrial Preparedness. That is the task to which twenty thousand Engineers are pledged.

The Engineers will lay for all time the ghost of the "military spirit" by making it possible to have millions made in thousands of plants. This vital work of the Engineers will supply the military authorities in Washington with information never before collected, and it is carried forward without a dollar's cost to the Government. And this achievement is not paid for. The Associated Advertising Clubs of the World have prepared the copy and the publishers have patriotically responded and printed it without pay for the sake of National Defense and International Peace.

All Americans are asked to make haste with the Engineers as they shall have been in time of war, the ability to produce swiftly, abundantly and with sustained power all the thousand and one elements of modern warfare without such production there can be no efficient army and navy.

National Defense and International Peace

What the Engineers are Doing

THIRTY thousand American engineers are making a card index survey of American industry so that it may be prepared for its vital part in defending the Country, if need comes. The past eighteen months have taught us here in America what lack of industrial preparedness has meant to some of the countries now at war. These nations had the ships and they had the men; but when the hour struck, their factories were not able to furnish the colors with arms and shells and powder. Their factories were not prepared. And our factories are not prepared.

But it is not enough to draw a moral. In the United States five great Engineering Societies—Civil, Mining, Mechanical, Electrical and Chemical—have pledged their services to the Government of the United States, and are already working hand in hand with the Government to prepare industry for the national defense. They receive no pay and will accept no pay. All they seek is opportunity to serve their country, that she may have her industries mobilized for defense.

All elements of the nation's life—the manufacturers, the business men, and the workmen—should support this patriotic and democratic work of the engineers, and assist them cheerfully when asked. There can be no better national insurance against war.

The Associated Advertising Clubs of the World, representing all advertising interests have offered their free and hearty service to the President of the United States, in close co-operation with these five Engineering Societies, to the end that the Country may know what the Engineers are doing. The President has accepted the offer. The Engineers have welcomed the co-operation.

This advertisement, published without cost to the United States, is the first in a nationwide series to call the country to the duty of co-operating promptly and fully with the Engineers.

Californian Had Kidney Trouble

Jack Natto, Copperopolis, Calif., says: "I had such a severe case of kidney trouble I thought I would have to sell out my business and go to the hospital of Foley Kidney Pills. I was entirely relieved and I have had no recurrence of kidney trouble since then."

Some days it seems as if you can no longer bear the pain and misery you suffer from kidney and bladder troubles. The urine smells, your back aches, your head aches, your eyes are sore, your stomach is full of gas, your bowels are irregular. Foley Kidney Pills loosen the pain, until it is finally gone entirely. They make them strong, active, their action is powerful, regular, and normal again, and your health grows better each day you take this great healing medicine.
